Statistics

EXECUTIVE SUMMARY

This report presents family characteristics on the basis of Canada, the provinces and Manitoba's eight economic regions using data from the 1991 and 1996 Census. Household statistics are presented along with information on census and economic families. Information is also presented for lone-parent families.

There were 28,846,761 Canadians as of May 14, 1996, up 5.7% or 1,549,902 persons from the 1991 Census Count. British Columbia ranked first among the provinces with respect to the rate of population growth, up 13.5%, while Newfoundland came last, down -2.9%. The Census counted 1,113,898 Manitobans in May of 1996. This is an increase of 21,956 (up 2.0%) from the 1991 Census count. This growth rate ranked sixth (tied with New Brunswick) when compared to other provinces.

The largest increase in the Census counts for a Manitoba region was recorded in the North with an increase of 6,496. This represents an increase of 8.5% over the 1991 count and 29.6% of Manitoba's increase in Census counts between 1991 and 1996.

Throughout Canada the number of census families in private households increased by 482,135 (up 6.6%) between the 1991 and 1996 Census. There were 7,355,730 census families in Canada in May of 1996. The number of census families in Manitoba was 292,925 in 1996, 7,030 more than in 1991.

The North and Southeast regions of Manitoba observed the largest growth in census families in private households. The North grew by 1,695 census families (up 9.5%) and the Southeast region increased by 1,700 (up 8.2%).

In 1996 there were 9,369,750 children living at home in Canada, an increase of 569,015 over 1991. In Manitoba, the number of children living at home increased by 2.8%, there were 352,430 in 1991 and 362,240 in 1996.

Within Manitoba, the North observed the largest increase of children living at home, up 3,305 to 35,115 in 1996 or 10.4% more than in 1991 which was also the largest growth rate. In terms of absolute growth, Winnipeg was second with 3,165 more children in 1996 than in 1991, for a growth rate of 1.7%. With respect to growth rates, the Southeast region came second with a growth rate of 5.3% (up 1,485) from 1991 to 1996.

The median annual income of census families (in constant 1995 $'s) in Canada decreased between 1990 and 1995. In 1990 the median annual income was $50,111 while in 1995 it was $46,951, a drop of 6.3%. Saskatchewan was the only province to observe growth in the annual income of census families; it grew by $430 to $43,477 in 1995, up 1.0% over 1990 and all other provinces observed decreases. Manitoba experienced a decline of -3.6%, in 1990 the median annual income was $45,402 and in 1995 it was $43,758.

On a Manitoba regional basis, the Southwest, Parklands and South Central regions all observed increases in annual family income from 1990 to 1995. The Southwest region saw an increase of $1,215 in 1995, while the Parklands and the South Central regions saw increases of $716 and $166 respectively. The North witnessed the largest decrease in the median family income, down $2,945 from 1990 for a growth rate of –7.2%. The Winnipeg and Southeast regions also observed decreases in family income.

The incidence of low income increased nationally from 13.1% in 1990 to 16.3% in 1995. All provinces observed growth in the incidence of low income among economic families, except Saskatchewan, which decreased from 14.5% in 1990 to 14.3% in 1995. Manitoba went from 15.2% in 1990 to 16.3% in 1995, which was the second smallest increase when compared to other provinces, only Alberta had a smaller gain in the proportion of low income among economic families.

Within Manitoba, increases in the percentages of low income among economic families were observed in the North, Winnipeg, Interlake and Southeast regions, while the Parklands, South Central, Southwest, and North Central regions all reported decreases.

Note to Users

This report is divided into two sections:

Section A, comprising Tables 1 to 10 and Charts A1 to A22, presents data on Canada and the provinces.

Section B, comprising Tables 11 to 18 and Charts B1 to B18, presents data on Manitoba's eight economic regions (see map on page 4).

The data in Table 1 for Canada and the provinces is presented in Table 11 for Manitoba's economic regions. Similarly, Table 2 matches Table 12, Table 3 matches Table 13, etc.

For the charts, Chart A1 shows the same variables for Canada and the provinces as Chart B1 does for the economic regions. Chart A2 matches Chart B2, Chart A3 matches Chart B3, etc.

INTRODUCTION

This report presents family characteristics on the basis of Canada, the provinces and Manitoba's eight economic regions using data from the 1991 and 1996 Census. The regions used in this report are the Official Regions for Data Collection (also known as Economic Regions) which are comprised of Manitoba's 23 census divisions as follows:

OFFICIAL REGION FOR DATA COLLECTION	SUB-PROVINCIAL REGION	CENSUS DIVISIONS IN REGION
Southeast	10	1, 2, 12
South Central	20	3, 4
Southwest	30	5, 6, 7, 15
North Central	40	8, 9, 10
Winnipeg	50	11
Interlake	60	13, 14, 18
Parklands	70	16, 17, 20
North	80	19, 21, 22, 23

Please note that unless otherwise specified data in this report are based on the Census "long form" (i.e. respondents from 1 of 5 non-institutional households that received the Census long form). If data is not based on the Census "long form" but on the Census "short form" (i.e. 100% of households) it will be noted as follows: [100% data].

Census family refers to a now-married couple (with or without never-married sons and/or daughters), a couple living common-law (with or without never-married sons and/or daughters), or a lone parent with at least one never-married son or daughter living in the same dwelling.

Economic Family refers to a group of 2 or more persons living in the same dwelling and are related to each other by blood, marriage, common-law or adoption.

Dwelling refers to a set of living quarters in which a person or group of persons reside or could reside. **Private occupied dwelling** refers to a private dwelling in which a person or group of persons are permanently residing.

Household refers to a person or group of persons (other than foreign residents) who occupy the same dwelling and do not have a usual place of residence elsewhere in Canada. Households are classified as **private households** or **collective households**. **Collectives** refer to a dwelling of a commercial, institutional or communal nature.

For custom tabulations or inquires regarding this report, contact David Greenwood of the Manitoba Bureau of Statistics, at (204) 945-2989.

DATA SOURCE: STATISTICS CANADA 1996 CENSUS OF CANADA

JUNE 2000

ENDNOTES:

(1) Does not include an estimate for unenumerated Indian Reserves. Canada data includes the Territories.

(2) Number of never married sons and/or daughters at home.

(3) Refers to the total money income received during calendar year 1995. To convert the 1990 incomes into 1995 dollars the 1990 values are revised upwards by the change in the Consumer Price Index between 1990 and 1995.

(4) Includes the single responses of English, Irish, Scottish, Welsh and British not included elsewhere.

(5) Includes the single responses of Inuit, Metis and North American Indian.

(6) Includes the single responses of French, Acadian and Quebecois.

(7) A multiple response occurs when a respondent provides two or more ethnic origins.

(8) Husband-wife families are comprised of families of now-married couples and families of common-law couples.

(9) The average number of never-married sons and/or daughters at home per family is calculated using the total number of never-married sons and/or daughters at home and the total number of families.

(10) The total income of a census family is the sum of the total incomes of all members of that family.

(11) These average and median incomes are based on families with income in 1995.

(12) Families of now-married couples and those of common-law couples together constitute husband-wife families.

(13) Non-family persons refers to household members who do not belong to a census family. They may be related to Person 1, the household reference person (e.g. Person 1's divorced brother, brother-in-law, cousin, grandparent), or unrelated (e.g. lodger, room-mate, employee). A person living alone is always a non-family person.

(14) The total income of a household is the sum of the total incomes of all members of that household.

(15) Refers to a person or a group of persons (other than foreign residents) who occupy a private dwelling and do not have a usual place of residence elsewhere in Canada.

(16) Includes family households.

(17) The incidence of low income is the proportion or percentage of economic families or unattached individuals in a given classification below the low income cut-offs. These incidence rates are calculated from unrounded estimates of economic families and unattached individuals 15 years of age and over.

(18) For the purposes of low income statistics, economic families and unattached individuals in the Yukon, Northwest Territories and on Indian reserves were excluded.

(19) A private dwelling in which a person or a group of persons are permanently residing. Also included are private dwellings whose usual residents are temporarily absent on Census Day.

(20) A private household refers to a person or group of persons (other than foreign residents) who occupy a private dwelling and do not have a usual place of residence elsewhere in Canada.

(21) Refers to all private households (one-family, multiple-family and non-family households).

(22) Refers to one-family households without additional persons.

(23) Refers to the number of weeks in which a person worked for pay or in self-employment in 1995 at all jobs held, even if only for a few hours, and whether these weeks were mostly full time (30 hours or more per week) or mostly part time (less than 30 hours per week).

(24) Refers to persons 15 years of age and over, excluding institutional residents, who worked 49-52 weeks on a full time basis in the reference year for pay or in self-employment.

Abbreviations:

n.e.c. = not elsewhere classified

n.i.e. = not included elsewhere
